LETTER

Commissioner for Patents
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

This communication is responsive to the Office Action of
October 6, 2005.

In the Office Action the Examiner indicated that the
application contained two different inventions, namely the invention related
a semiconductor device, and an invention related to a method of making
a semiconductor device.

The Examiner requested to elect for further prosecution one of the inventions.

With the present communication applicants have elected for further prosecution the invention related to a semiconductor device. It is respectfully submitted that claims 1-10 and 22-25 are readable on the invention drawn to the semiconductor device.

It is therefore respectfully requested to prosecute claims 1-10 and 22-25.

Consideration and allowance of the present application is most respectfully requested.

Should the Examiner require or consider it advisable that the specification, claims and/or drawings be further amended or corrected in formal respects in order to place this case in condition for final allowance, then it is respectfully requested that such amendments or corrections be carried out by Examiner's Amendment, and the case be passed to issue. Alternatively, should the Examiner feel that a personal discussion might be

3

helpful in advancing this case to allowance, he is invited to telephone the undersigned (at 631-549-4700).

Respectfully submitted,

Michael J. Striker
